

Improving Construction Productivity
Torrance, California

To: CPMCA Contractor Members / Staff

CPMCA is offering all members a complimentary 1-day **Improving Construction Productivity** seminar.

Every expert in construction productivity agrees that we have A LOT of room for improvement. But how? After an introduction to the concept of continuous productivity improvement, we will examine tools and techniques to deliver real results on your job sites. Learn how to recover 24 minutes each day and double your bottom line profit. Sections on equipment management, planning and scheduling, managing sub-contractors, and the use of measurements and technology are certain to teach you and your staff how to save valuable time and money.

This course will be taught by **Jim Bain** who is the President of Falcon Advisors, Inc., a consulting and corporate training firm. Jim provides consulting services, strategic planning facilitation, partnering facilitation, corporate training, and individual coaching for a broad array of organizations in the construction industry. He has given presentations on a variety of business subjects for Mechanical Contractors Association (MCAA), National Electrical Contractor Association (NECA), and Construction Financial Management Association (CFMA) groups around the country.
